SUMMARY

Software Engineer with 2.5+ years of experience in Full Stack Development, proficient in React.js, Node.js, Express.js, MongoDB, MySQL, Java, Spring Boot, and Angular for building scalable, responsive, and enterprise-grade web applications. Experienced in designing RESTful APIs, implementing authentication and authorization, database design, microservices development, and building modern web applications following software development best practices. Familiar with AWS cloud services, messaging systems, Hibernate, and CI/CD pipelines using Jenkins for application deployment and environment management.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, Angular, TypeScript, Tailwind CSS.
- **Backend:** Node.js, NestJS, Express.js, REST APIs, JWT Authentication, Java 8+, Spring Boot.
- **Databases:** MySQL, MongoDB
- **Cloud & Tools:** AWS, AWS SQS, Git, Jenkins, XML Processing.
- **Architecture:** Microservices Architecture, Hibernate.

WORK EXPERIENCE

Software Engineer, Bytize Technology Solutions

Feb 2024 - Present

ERP Admin Control Panel

- Developed enterprise ERP Admin Control Panel.
- Built modules for Employee Management, Customer Management, Inventory, Pricing, Categories and Role-Based Access Control.
- Implemented enterprise workflows including Quotations, Purchase Orders, GRN, Transfer Orders and Invoicing.

Partner Control Panel

- Developed Partner Management Portal.
- Managed merchant onboarding, subscriptions, leads, opportunities and account management across 25+ countries.
- Built REST APIs and business modules for partner lifecycle and subscription management.

PosBytz Website

- Developed and maintained the PosBytz website.
- Built Spring Boot APIs and integrated Sanity CMS for dynamic content and media management.
- Implemented advanced CMS-driven sitemap generation and image SEO optimization.

POS & Ordering Solutions

- Developed QR Ordering, Kiosk Ordering and POS Billing solutions.
- Implemented order processing, billing, payment validation and invoice generation workflows.
- Built tax reporting, modifier handling and split-payment functionalities.

Customer Management System (CMS)

- Developed Customer Management System (CMS).
- Built customer engagement modules including Loyalty Management, Feedback Management, Campaign Templates, Birthday Campaigns and Anniversary Campaigns.
- Developed REST APIs and backend services for customer lifecycle management and marketing automation.

Contract Lifecycle Management (CLM)

- Developed enterprise Contract Lifecycle Management (CLM) platform.
 - Automated XML import/export workflows and approval processes, reducing manual effort by 70%.
 - Implemented REST APIs, role-based access control and workflow automation for contract processing.
-

ACHIEVEMENTS

- Integrated multiple payment gateways including Telr, Adyen and Tours for secure transaction processing.
 - Managed development of merchant and partner platforms supporting operations across 25+ countries.
 - Automated CLM workflows, reducing manual processing effort by 70%.
 - Improved onboarding turnaround time by 40% through workflow automation.
-

ADDITIONAL PROJECTS

Tutorials Management System

- Developed a full-stack tutorial publishing platform using Angular, Java, Spring Boot, Hibernate ORM and MySQL.
 - Implemented role-based authentication and RESTful APIs for content management.
-

EDUCATION

Bachelor of Engineering (Electrical & Electronics Engineering)

Aug 2019 - Mar 2023

Anjalai Ammal Mahalingam Engineering College

CGPA: 8.02
